

How NOT to be a statistic! Understanding Weather to improve your Aeronautical Decision Making (ADM)

This day-long seminar is designed to greatly improve both your meteorology and communication skills. The first part of the day is spent learning how to handle aviation weather hazards, how to use technology to go beyond the weather briefing, understanding forecasts, and even how to forecast for your own trips.

After the provided lunch, We will focus on air traffic control and spend time explaining how the national air space system works, proper ATC phraseology, common pilot mistakes, how to avoid a pilot deviation, and using ATC during instrument flights.

Directions: Auburn Airport (KAUO) FBO (Fixed Base Operator)

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
